

WOODSHIELD

The Premier Coated Timber Posts

**Untreated timber fully
encased in recycled plastic**

The fence post that survived the 2014 Victorian Bush Fires

**"Fires burn across Victoria after the
worst day since Black Saturday"
HeraldSun - February 12, 2014**

2014 Fire

2012 Install

2018 Regrowth

**The recycled polyethelene has a lower burn ratio
than standard timber posts.**

**Because there is no chemical treatment, there is
no fuel for the flames.**

No dried out timber so no cracks for the embers.

**The fire swept through leaving the Woodshield
fence posts untouched.**
